

NOW OFFERING

CLINICAL CONSULTATIONS

The MA Technical Assistance Center for Problem Gambling Treatment is launching a pilot service to provide clinical consultations, which will include education, support, mentoring, and peer-to-peer problem solving skills. The consultations will serve as a space for counselors to ask questions about treatment, screening, and assessment for Gambling Disorder.

Service is available to clinical providers from Bureau of Substance Addiction Services (BSAS) licensed outpatient treatment organizations that partner with Capacity Building Managers from M-TAC.

SERVICES:

1:1 Client Case Clinical Consultation

- A space created for clinicians or clinical supervisors who want to discuss a client case
- Remote sessions
- Individual only (60-min)

30-minute General Problem Gambling Q&A

- A 1:1 space for an individual to ask general questions, including evidence-based treatment methods for problem gambling
- Remote sessions
- Individual only (30-min)
